

Project Design Phase-II
Data Flow Diagram & User Stories

Date	28 October 2022
Team ID	PNT2022TMID51504
Project Name	Project - Statistical Machine Learning Approaches to Liver Disease Prediction
Maximum Marks	4 Marks

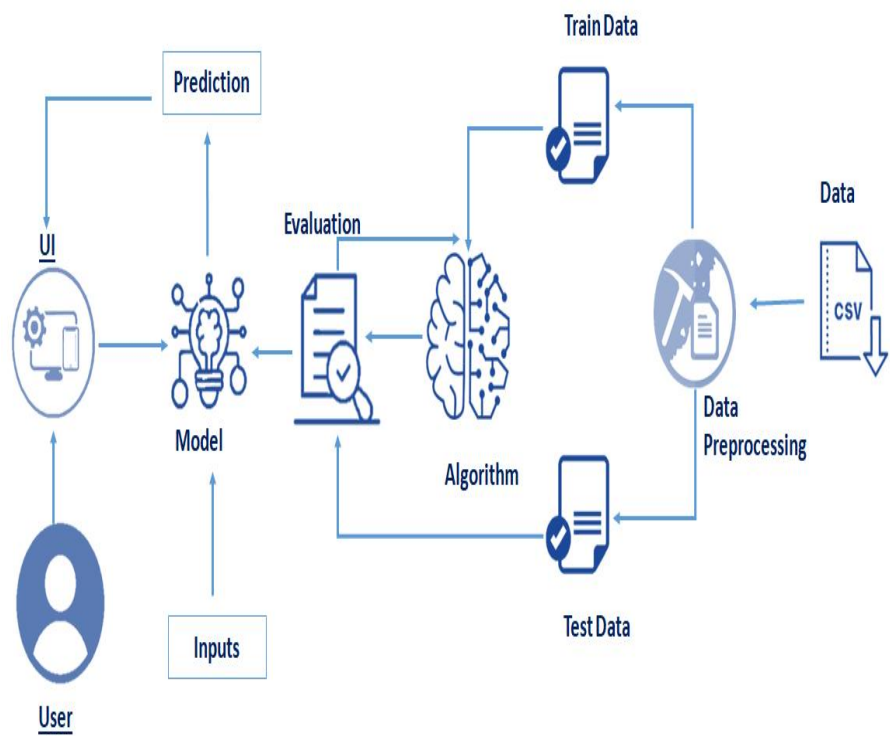

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

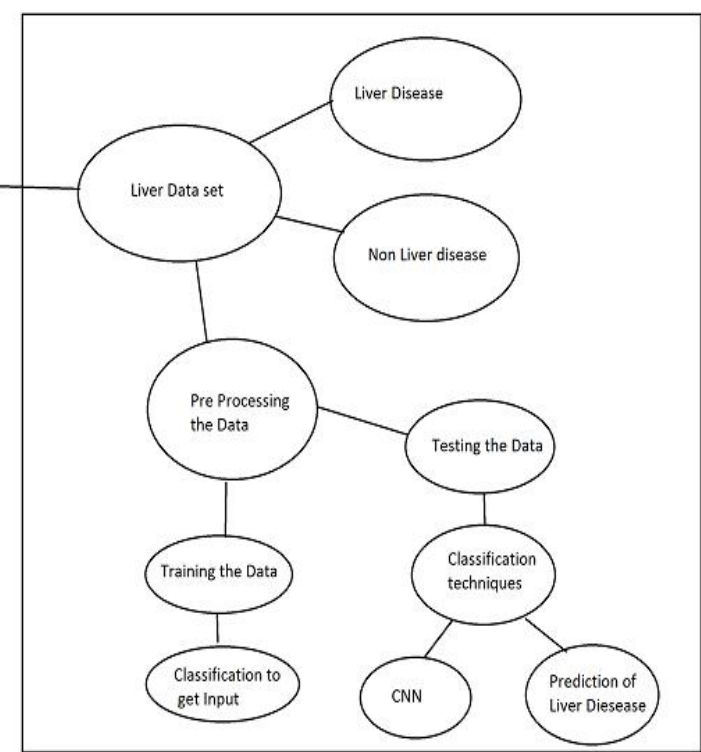

Example: [\(Simplified\)](#)

Example: DFD ([Liver Data Set](#))

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through liver disease checking application	I can register & access the dashboard with Facebook Login	Low	Sprint-2
		USN-4	As a user, I can register for the application through enter the Personal details, Mobile Number and Gmail		Medium	Sprint-1
	Login	USN-5	As a user, I can log into the application by entering enter the Personal details, Mobile Number and Gmail		High	Sprint-1
	Dashboard		Waiting for the Acceptance			
Customer (Web user)			Executing the process.....			
Customer Care Executive			Executing the process.....			
Administrator	Main user login	MUSN-001	Accept the application to send the receive message to give a token	I can get te acceptance message		Sprint delivery
